

The Hiking Trip

difficulty: hard

The murderer has been caught!

Here's where every
everyone was.

SOLUTION PAGE

1. K is in the Grove, in C11 or C12, and E is in the Ranger's Hut, also in C11 or C12. Block the rest of C11 and C12. I cannot occupy the chair in the bottom row (H is already there), which isolates I on the last available chair.

2. There is now only one bear that F can be four rows below: the bear in R2C10. This sets F in R6, and B two rows above him, in R4.

3. F cannot be in the Grove (E and H already occupy C11 and C12). F also cannot be on the Windy Trail (he needs a cap, per A's clue). This isolates F in R6C10.

4. This isolates K in the last available square in the Grove.

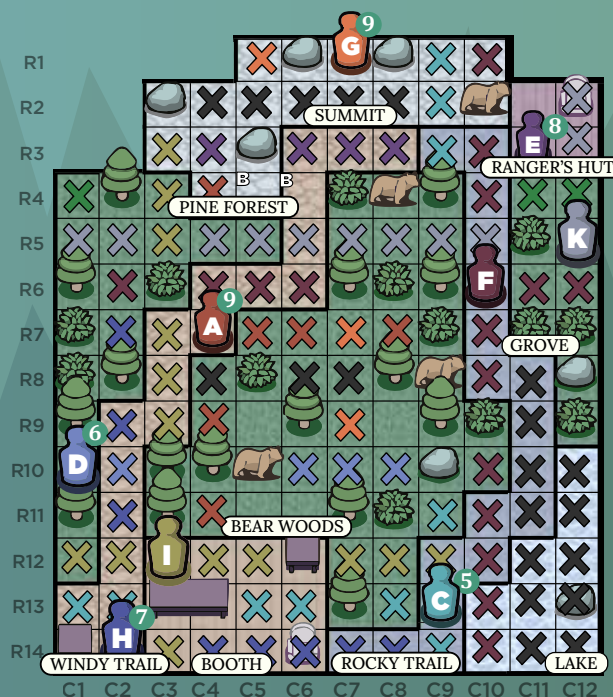

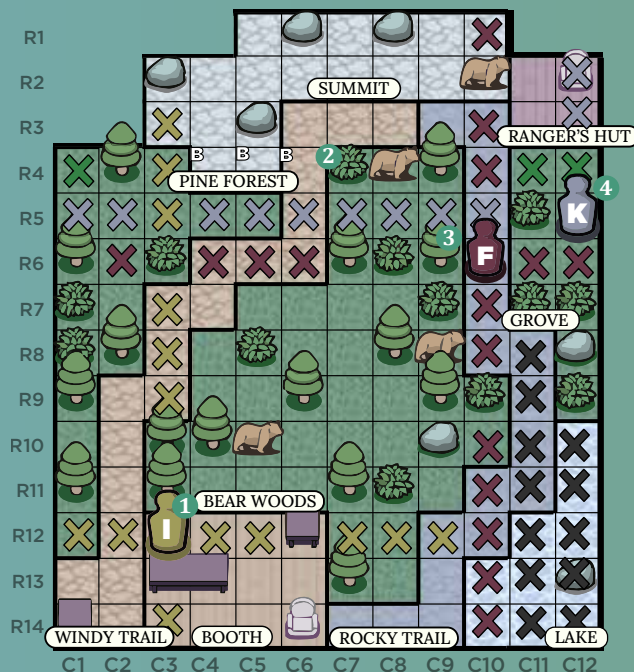

5. This isolates C in the last available square on the Rocky Trail (H must be in R15).

6. There is only one square available in C1, this isolates D in C1.

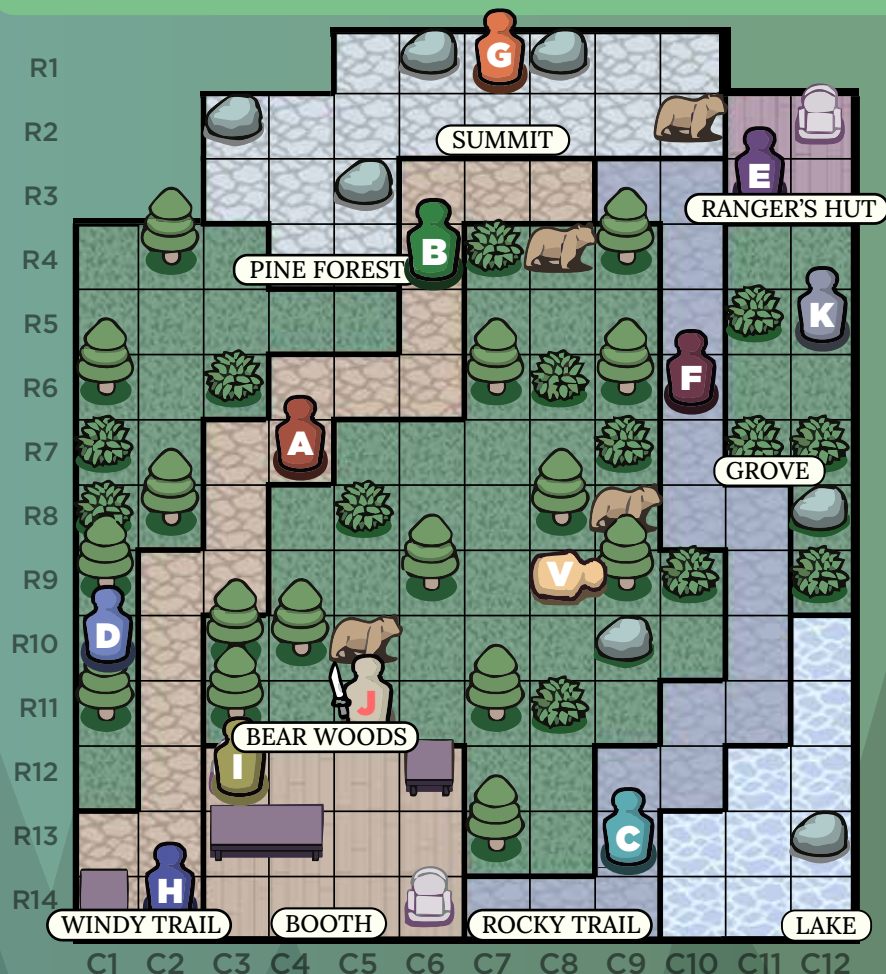

7. H, without glasses, cannot be on the Rocky Trail (per C's clue). This isolates H in R14C2.

8. Two rows contain a person and a bear: R4 and R10. The two other rows with bears must be empty per the general clue (R2 and R8). This isolates E.

9. This isolates A on the last Windy Trail square, and G beside the last boulder.

10. J must be beside the bear in C5 and B in C6. This isolates B, V and J. V was alone with J in the Bear Woods, J is the murderer!

The murderer is...

Joe
